## Statement of Acknowledgement

Printed name: \_\_\_\_\_

As a patient of the Liberty Clinic, I have read the information and understand that the form of medical care is based on complementary and alternative medicine and other supportive therapies. As the **Liberty Clinic** is an integrated health clinic, I recognize that even the gentlest therapies potentially have their complications in certain physiological conditions or in very young children or those on multiple medications. The information I have provided is complete and inclusive of all health concerns including risk of pregnancy; and all medications, including over the counter drugs. The slight health risks of some treatments include, but are not limited to: aggravation of pre-existing symptoms,

allergic reaction to supplements or herbs, pain, fainting, bruising or injury from venipuncture or acupuncture, muscle strains and spasms, rib fractures, and disk injuries.

I also recognize the following:

- **Any treatment** or advice provided to me as a patient of the Clinic is **not mutually exclusive** from any treatment that I may now be receiving or may in the future receive from another licensed healthcare provider.
- I am at **liberty to seek or continue medical care from a medical doctor or other healthcare provider licensed to practice in Ontario.**
- I am aware that **no part of my treatment is covered by OHIP** and that I am solely responsible for **payment at the time services are rendered.**
- I am aware that **48 hours notice** must be given for all cancelled appointments or a **cancellation fee (100% of the service fee)** will be applied.
- I understand that the health professional reserves the right to determine which cases fall outside of his/her scope of practice, in which event the **appropriate referral will be recommended.**

I am aware that the Liberty Clinic is an integrated clinic. In order to provide optimal care, our health professionals may confidentially request information from your medical doctor, e.g. medications, lab results and imaging (X-rays, MRI, CT, ultra-sound, bone density, etc.), in order to analyze all the components of your case. A “Patient information release form” would need to be signed in this case.

I also confirm that I have the ability to accept or reject this care of my own free will and choice and that I am not an agent of any private, local, county, provincial or federal agency to gather information without stating. I accept full responsibility for any fees incurred during care and treatment.
